**CONTRIBUTE TO
FINANCING OF THE
RESTORATION WORKS
OF THE
FONDATION MAEGHT'S
MIRÓ LABYRINTH**

From the very outset of the Fondation Maeght, Joan Miró gave free rein to his imagination and created a unique space in the world: The Miró Labyrinth. With his friends the Artigas, a father and son duo, who were ceramists, he created a magical place populated by monumental sculptures.

20 works made of ceramics, marble, bronze, iron, concrete were thus crafted by the artist and displayed in an unrivalled natural environment.

Now, more than 50 years after their creation, structural and cosmetic damage has been identified on some of them. In 2018, the three marble sculptures were restored and the Société des Amis will finance the restoration of two ceramic works, namely Gargouille and L'Œuf in 2019.

To preserve the Labyrinth, the Société des Amis of the Fondation Maeght has decided to launch a campaign to finance the restoration of 14 of its works. The Société des Amis demonstrates its strong commitment to artistic creation by proposing this project to the Fondation Maeght and helps to preserve the works in the Fondation Maeght's collection. It is in line with its missions.

You can also contribute to the preservation of a universal artistic heritage by supporting the project of the Société des Amis and by participating in this fundraising campaign. We would like to thank you for your support in advance.
